

The Art of the iPhone:

Apps Creative with Jan Armor

Saturday, September 22 & 29 / 9:00am – 12:30pm

Cost: \$120 for Non- Members / \$100 for Members

Photography workshop led by Photographer, Jan Armor

iPhone artist Karen Divine admits, "I don't see the world in a literal way so for me to take a photograph of something I can already see is very uninteresting... You don't want to just look at the image and "get it," you want to look at that image and really wonder.

Like, what is that person trying to say, or how did they do that?"

This is a workshop where image meets imagination. Because abstract art doesn't have to be an accurate representation of the subject, you have the freedom to be as creative with your photo editing processes as you wish. Using inexpensive apps, the possibilities are endless, limited only by your imagination. Dream it and you can do it on your iPhone or iPad.

Jan Armor will show you how to transform your pictures using powerful (and inexpensive) editing apps. You will discover the art of compositing two or more images to create an altered reality. We will work with several alternative cameras to extend the limits of what is possible with the one in your iPhone or iPad. We will employ different "workflows" that make using these apps easy.

**Warwick Center
for the Arts**
