Announcing “Sight & Sound” Spring Juried Exhibit

Art is often inspired/influenced by other sensory experiences. For example, the rhythm of a song might inspire a painter's brush strokes on a canvas, a photograph in nature could make the viewer feel as if they were there in the moment, listening to the stream flowing or waves crashing. A trip to the Caribbean may inspire an artist to create an artwork full of vibrant colors. Every work of art we create is the culmination of every experience we have consumed before. Warwick Center for the Arts seeks to present artworks that highlight the interplay between these sensory experiences. Artworks may be either directly or indirectly, inspired by past sight & sound experiences. This exhibit is open to artists working in all mediums.
